Classic car restoration, repair, service and storage

Specialising in Austin Healey, classic Mini and Mini Cooper, MG, Jaguar, Triumph.

**Welcome to the inaugural Great Western Vintage and Classic Rally, and thank you for your entry.**

We have found some lovely lanes in and around the southern Cotswolds; please enjoy the views and scenery - but don't get too distracted from following the route instructions safely.

It being a summer Sunday please be aware of other road users, whether they be on foot, horseback or bicycle. Many of the speeds set for the regularities might at first glance seem to be very low, but it is very easy indeed to lose time while crawling gingerly past oncoming traffic, or looking for a safe opportunity to pass someone going slower than you would like.

Thinking of traffic, it is quite likely that if you meet an oncoming vehicle in a narrow lane, you may well be quicker at reversing than they are. Bear in mind that they may already have encountered several rally cars upsetting their normal routine.

By the way, there will be one or more roving Driving Standards Observers watching the rally. Please don't give them cause to pull you over or report you.

I would like to take this opportunity not only to thank you, the entrants, but also the small army of dedicated marshals you will (hopefully!) encounter some time during the day. It is intended to be quite a relaxed affair for those new to historic road rallying, but doubtless the more experienced crews will be fighting tooth and nail with each other to gain a second or two advantage wherever it can be found.

If you have any issues or concerns, your first point of contact should be our Competitor Liaison Officer, Andy Ballantyne, whose number is on the next page.

Happy rallying,  
Bernard Northmore  
Clerk of the Course

Bath Motor Club Limited was founded in 1963 and is one of the leading motor clubs in Southern England. Among its members are those who have distinguished themselves in international motor sport. Its reputation for organising top-level club motor sport as a fully affiliated club to Motorsport UK is impeccable.

As well as organising national championship events, Bath Motor Club has an enviable reputation on the social side with a wide range of events such as motoring quizzes, skittles evenings, visits to motorsport and non-motorsport businesses. We also put on treasure hunts, BBQ evenings and talks from motorsport personalities.

Regularity 5	Near Leighterton	inner.submitted.havens	111	16:10		
MTC3	Walcot Rugby Club	online.judge.famed	136	<b>17:18</b>	30	30

## A few things to be aware of

### Fuel

Please be careful with your fuel planning; the route is approximately 135 miles long and there are no filling stations en route. This Roadbook does however indicate where some filling stations might be found and approximately how far off route they are.

### Timing

On your timecard you will see a scheduled time at each Main Time Control, Test start and Regularity start. This is the time for a notional "Car 0". To find your own scheduled time at any point, just add your car number to the time given for Car 0.

You will notice that the Test and Regularity start controls are in *italics*. This means they are for guidance only; there is no penalty for being early or late, but these controls are only open from 15 minutes before the scheduled time of the first car until 30 minutes after that of the last car. You do not need to queue in car number order at these controls.

The times for the Main Time Controls are in **bold** type. This means that penalties may be incurred for early or late check-in. You may present your card to the marshal within 60 seconds before or after the minute specified, eg if your due time is 12:34 then you may check-in between 12:33:01 and 12:34:59 and ask the marshal for "12:34". If it is before 12:34 then the marshal will hold your card and chip it at, or shortly after, 12:34:00.

Check the Final Regulations for penalties incurred for being early or late at the MTCs.

### Regularities

On Regularities there will be no Timing Point within sections in the Roadbook which are shaded grey.

Newcomers should not worry too much about timing; it is far, far more important to get the route right. If you look at the specified speeds for a Regularity you might be able to judge the average speed overall. If you stick to that speed, you probably won't be far off the right time.

On faster roads, try not to hold other traffic up. There will not be a Timing Point on any A or B road, or within half a mile of leaving a fast road.

Read the text at the top of each Regularity - it will tell you whether Timing Points will only be at points explicitly identified in the Roadbook or whether they could appear anywhere on the route.

The last Timing Point on a Regularity will always be before the specified End of Regularity.

Some boxes on your Timecard might remain empty - there may be fewer Timing Points, Codeboards or Secret Checks than the card allows for.

With "tulip" diagrams (Regularities 1 and 5), you always go from the ball to the arrow - regardless of the way the diagram is oriented.

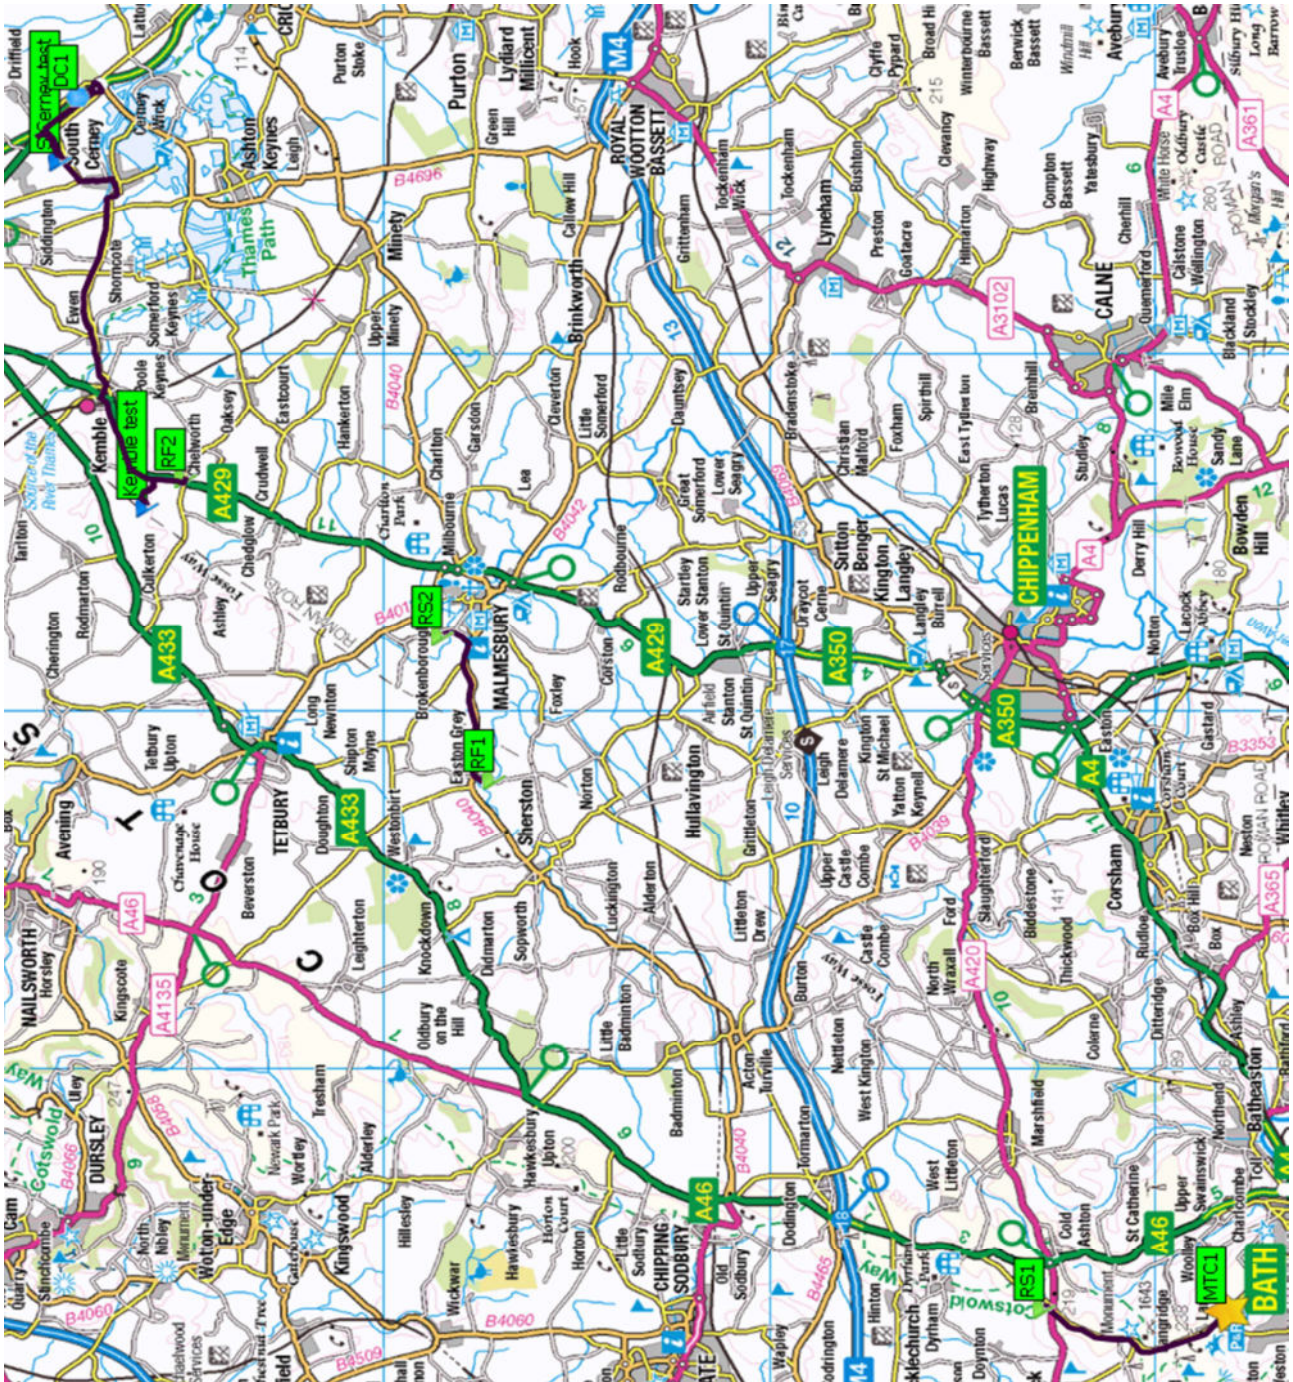

"Proper" roads are shown as solid lines, dotted lines are used to show tracks, laybys, private roads, etc.

Although only supposedly surfaced roads are used, some of them are rather rough - if you see very slow speeds in a regularity (e.g 15 or even 10 mph), then it will probably be because those sections of road are in extremely poor condition.

Also, many of the Timing Points are in rather rough laybys or gateways; always take care when approaching the control board - and be careful not to scare the marshals, or they might drop their pen and cause delay in giving you your time.

### MAP OF MARKET

Regularity 3, "The Long Way Round"						
Note: not all junctions are shown below. If a junction is not included, and unless instructed otherwise, stay on the principal road. You must obey all compulsory road signs such as "One way" and "No entry" and you should not pass a "No Through Road" sign unless instructed to do so.						
<b>NOTE: TIMING POINTS WILL ONLY BE LOCATED AT INSTRUCTIONS INCLUDED BELOW.</b>						
Total miles	Inter-mediate miles	Information	Speed (MPH)	Total time due here (mm:ss)	Inter-mediate time (mm:ss)	For comp's use
Please form an orderly queue, in car number order, for MTC2, which is to the left of the car park exit. The marshal will sign your Timecard for MTC2 and allocate you a start time for Regularity 3. Then proceed to the Regularity Start at the gate and start at the time given by the MTC2 marshal.						
Take great care when leaving the site as there may be other rally cars entering, as well as members of the public arriving at and leaving from the Mole Valley Farmers store. Remember you have at least 2 miles before the first Timing Point, and the speed set should easily allow you to be on time within that distance.

# Regularity 4, "Bagpuss"

Note - not all junctions are shown below. If a junction is not included and unless instructions state otherwise, remain on the principal road. Obey all compulsory road signs (e.g. "One Way") and never pass a "No Through Road" or "No Entry" sign unless instructed to do so.

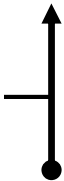

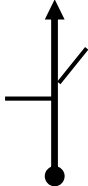

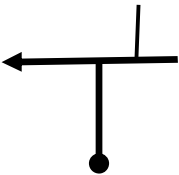

Key to abbreviations

EoR= End of Regularity, FL=Fork left, FR=Fork right, GW=Give Way, SL=Slot left, SO=Straight on, SR=Slot right, TL=Turn left, TR=Turn right, XL=Crossroads turn left, XR=Crossroads turn right, XSO=Crossroads straight on.

Note that "Slot left" (or right) means take a turning off to the left (or right), whereas "Turn left" (or right) means turn left (or right) at a T junction.

**Note: Timing Points may be located ANYWHERE along the correct route - not necessarily at a distance shown below.**
